

HAITI UPDATE

September 7, 2021

Dear Coworkers:

Greetings to you all in Jesus' Name. I count myself blessed beyond words. Checks are coming in to aid Haiti in their humanitarian crises. The recent earthquake has left many destitute and we are helping where we can and your support is helping us to feed the hungry, provide shelters and comfort those that have only seen destruction and death the past few years. I am happy to say that all of our churches that did not have any damage to their buildings are helping their suffering brethren. They were delivering food and water to the 40 some churches that saw their buildings damaged or destroyed, along with their homes. The helping churches are very poor but they gave from their hearts.

Erique hastened to Cavaillon, near the epi center of the quake. He chose to help the orphanage and school first with food and water. It is with much pride and joy that I see Erique help those in greatest need and not take care of his family and friends first. That will come too but we must first help those with the greatest needs, i.e., those who still sleep in the church buildings since their homes were utterly destroyed.

By the way, Haitians love American rice and we are glad we got all the rice and water in Haiti and not bring it from the United States or the Dominican Republic. This tower of rice was delivered to the Cavillon church of Christ to take care of the many kids in the orphanage and their school.

Thank you again for helping, God bless you.

Joe Worndle
